WINTER 2017/2018

„OFF THE PATH“

~ SNOWMOBILE TRIP ~

LAPLAND LIKE HOME

I have been visiting Lapland since winter 2008. I am sharing my fascination by this unknown, wild and mysterious land with others. Experiences, friends I have met there and beauty of Lapland brought me to the point where I decided to create project which combines snowmobiling around Lapland and most of local highlights. This one of a kind proposal is dedicated to people who are looking for adventures out from regular paths, want to go further, know better and experience something exceptional.

WHY LAPLAND?

There is only few places in Europe which are still so undiscovered, where nature allowed people to live their traditional way of life. Interesting fact is that Lapland became part of Unesco Heritage Site.

I haven't met anyone who has visited Lapland and didn't love it. I am truly convinced that you will also add Lapland to your best-places-I-have-been-to list. I was lucky enough to visit few places all over the world and I haven't been coming back to any of them as much as to Lapland.

IS THIS OFFER FOR YOU?

This offer is dedicated to people who are respecting nature, are not afraid of challenges and live active life. You will have to face few hours on snowmobile, low temperature and conditions which match local standards. If you are aware of the fact that to eat something you will have to start a fire first, pack all your things in small backpack - I will be more than happy to have you with us.

In exchange I can guarantee exceptional experiences which you will never forget.

For 4 days we will be traveling by snowmobiles between snowy villages - in total over 400 km (4-6 hours per day).

You will visit places where regular tourists have no chance to come. You will see life of local people, where temperature below 0 is daily routine. Evening sauna will warm you up after long day and if you will have a bit of luck you will be able to admire one of the most amazing natural wonders - northern lights.

WHAT WILL YOU EXPERIENCE?

Snowmobiling, reindeer farm, evening snow shoes safari, sauna with ice hole bath, „off road“ snowmobiling, ice fishing.

It is hard not to mention about local specialities, food which is almost impossible to try anywhere away from Lapland.

Reindeer meat, moose meat or salmon traditionally made on fire are only few of meals that you will have a chance to eat.

DAY BY DAY OFF THE PATH

Day 1

- Arrival to Kittila, transfer, sauna with ice hole bath (if early arrival), dinner

Day 2

- Breakfast, packing, collecting snowmobile outfit, training, start of the trip, lunch, arrival to cabin 1, sauna, dinner

- Professional care, help and good sense of humor (in Polish, English, Swedish or Finnish)
- Additional activities included in program day by day: reindeer farm visit, ice fishing, avanto sauna- sauna with ice hole bath, snowshoe safari.
- Insurance

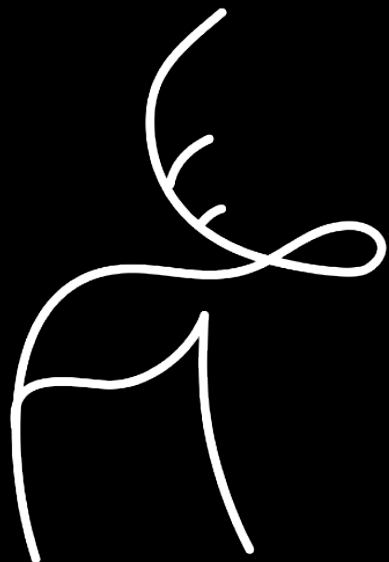

YOUR GUIDES

Adam - spent half of his life on the snow skiing, snowboarding (teaching both) and driving snowmobile. When winter is over he is involved with organizing different kind of major sport events. Passionate about Lapland and lappish nature and culture. Addicted to traveling and sport.

Tobias - born and raised in Lapland - land of 200 000 reindeers. He knows local paths like no one, his experience and skills made snowmobiles (which he drives since he was 7) secretless. He shares his knowledge with people so they can discover way more than they see. If you would choose anyone to get lost in Lapland ... that would be Tobias, because he is the best.
